Report of Health Officer

In rendering this report I wish to impress upon the minds of all parents the vital necessity of reporting any case of disease supposed to be contagious to the Board of Health or to a physician, thereby eliminating the danger of its further spreading.

There were quite a number of cases of measles reported last spring, but I believe that all the cases were not so reported. There is only one way to protect the public from contagious diseases and that is by the co-operation of all. I wish to thank all for the assistance given me during the year.

HARLON F. HODGE,
Health Officer.

Police Report

Number of cases before the court, 33. One woman and thirty-two men. Drunkenness 17, assault 6, vagrants 3, cruelty to animals 3, breaking glass 2, unlicensed dog 1, having liquor in possession 1.

There have been six persons committed to the N. H. State Hospital for Insane, three arrested for the Massachusetts Police, one for New Hampshire Police and one for the United States Army.

GEORGE I. NUTE,
Chief of Police.

Report of Superintendent of Schools.

TO THE SCHOOL BOARD OF JAFFREY:

As I understand that the selectmen desire to reduce to as low a figure as possible the cost of printing the annual town report, I am submitting herewith an abstract of my second annual report to you regarding school conditions (the ninth under district supervision.)

In regard to the school work of the year 1916-1917 I have nothing to add to my report of last year further than to say that in a few instances the work did not quite reach my hopes expressed at the time of writing that report.

This year we have been confronted with various adverse conditions as a result of teacher shortage caused by the war, sickness of teachers and the critical financial situation resulting from general increase in costs and the lengthening of the fiscal year by act of the legislature.

Generally speaking the work this year in the rural schools and the primary building has been good. The same may be said of the fifth and sixth grades in the high school building although they have suffered somewhat from the generally disorganized situation in the building as a whole. In the high school and junior high numerous changes in teachers as a result of sickness, and other factors, have operated to the detriment of the work. In fact, since the first month of the school year I have not at any time been satisfied with the conditions.

My recommendations follow: That provision be made for a special room to provide for retarded pupils in the lower grades; that the present organization of the seventh and eighth grades be continued along the lines of the junior high school; that a very careful consideration be given the financial situation to the end that the best possible results be obtained without entailing a financial hardship upon the tax payers. (The above recommendations are treated in detail in my full report to the Board.)

Yours very truly,

O. H. TOOTHAKER,
Fitzwilliam, N. H., Feb. 1, 1918. Superintendent.

Report of Supervisor of Music and Drawing

SUPT. O. H. TOOTHAKER:

The work in music and drawing has been along the usual lines. Many lessons in drawing in the Junior High were lost on account of the illness and resignation of Miss Kingman. In music the eighth grade has worked with the High School chorus and has done other class work. To put these special subjects on a proper and satisfactory basis, I would recommend that some arrangement be made whereby the work may be reckoned a certain per cent. toward yearly promotion. Granted that there are always those who cannot sing or draw to any extent there is always the reading and technical work in the music and the neat careful work that can be done in drawing by every pupil. I understood that some arrangement of this nature was to be tried this year, but so far it has not been put into operation.

Early in June the first four grades gave an entertainment which added \$42.30 to the Victrola Fund. With this a Victrola was purchased for the wooden building, the other having moved to the new building early in the year. With the remain-

der, records have been purchased for both buildings. There is now \$11.50 to the credit of the Fund.

In closing, I wish to thank School Board members, teachers, and superintendent for their interest, and co-operation in the work.

Respectfully submitted,

A. JEAN BROWN,
Supervisor.

Report of School Nurse.

TO THE SUPERINTENDENT OF SCHOOLS:

All the schools in town have been visited and each pupil has been inspected by the school nurse.

A survey of the general sanitary conditions of the schools shows that they are not all provided with the best sanitary devices.

The district schools are far behind in many things and the common drinking cup had not been abolished, but I think I can say that the children, most of them farmers' children, are physically and mentally ahead of some of the children in the other schools. There are forty-six children in these four rural schools and of this number only one was found mentally defective. Poor teeth was the chief ailment, and since the examination, several pupils have visited the dentist.

The early part of the year there were several cases of emipitigo. These children were excluded from the schools and received medical attention.

In all the six lower grades in East Jaffrey village, the rooms are over-crowded. In two of the rooms there are not sufficient seats to accommodate all the pupils.

In the fifth and sixth grades the children are normal. A few enlarged tonsils, poor teeth and several cases of pediculosis (head lice) were the most noticeable defects. But in the four lowest grades the condition is much more serious.

The larger portion of these children are of foreign extraction, their parents work in the mills and are unable, or have not the time, to give to each individual pupil the attention that it needs. Consequently, we have in this building a considerable number of backward and defective children that are not able to keep up with the other scholars. This makes it very hard for the teachers and really is a detriment to the whole school.

If the first grade could be divided so that each pupil could receive more attention than the teacher is now able to give, it would make a great difference in the results as a good start is the solution of the whole problem.

There are over fifty pupils in this building that have to bring cold lunches. It was decided that hot lunches could be served to these children at noon for a few cents. This was started after Christmas and has proved quite popular. This work has been under the direction of Miss Costello and the school nurse.

The same work has also been undertaken in the high school building under the direction of some of the teachers and the domestic acts class of the high school.

Respectfully, EVA M. LORD, School Nurse.

**Abstract of Business Transacted at the Annual Town Meeting
March 13, 1917.**
